

100 Years Inner Wheel 2024  
Germany Project 2020–2024

HELP for  
traumatized  
children and  
young people

 **Kinderlachen** e.V.

# We are committed to traumatized and neglected children and young people

Germany is a rich country with social security systems. Yet there are many children and young people who do not grow up in stable family relationships. The Covid pandemic has particularly aggravated the situation of traumatized and neglected children and young people. The members of Inner Wheel Germany want to help and, together with „Kinderlachen e.V.“, support children and young people in selected children’s homes in Germany with nationwide donations and benefit campaigns.

*“In their little worlds where children have their existence ... there is nothing so accurately perceived and so accurately felt as injustice”*

Charles Dickens (1812-1870)

## **Donation account:**

Any donation is welcome. 100 per cent of them go to the projects.
